

## HOT WEATHER UNIFORM.

MEMBERS OF THE THIRD REGIMENT  
IN WHITE DUCK TROUSERS.That is the Proposition Which Is Now  
Being Considered—An Officers'  
Meeting Called for Next  
Tuesday Night.

There will be a meeting of the officers of the Third regiment at the armory Tuesday evening. The officers will discuss the practicability of furnishing white duck trousers for the men for summer uniform wear. The only thing in the way is the expense, but Colonel Simonds will have some interesting figures on the matter from local manufacturing houses. This will put the boys of the Third on an equal basis with Uncle Sam's warriors in the hot regions of the country. It is probable that the suits will consist of regulation blouse, white trousers and helmet. The latter will probably be secured by the regiment. It has been used for years, each company making its own purchases. The result heretofore has not been very charming, owing to the variance between the styles secured by the different companies. The officers will probably wear "Chaps" suits of white entire, minus shoulder straps.

At this meeting there will be some interesting recruiting data reported by the examining board. This board consists of Captains Wagon and Kinnear and Major Halley, regimental surgeon. The board has had occasion to pass on the qualifications, physical and moral, of recruits. A large number of applicants for admission to the national guard. The boys are being recruited with the best possible material and a fine record has been made by the new board since its appointment. The members have worked to improve the morale of the force and have been of the greatest assistance to Colonel Simonds in his effort to increase the efficiency of the command.

It is possible that Adjutant General Wickham, who is out and here in conjunction with the regimental board of survey, in the checking up of regimental property, and especially the condemnation of uniform units, will be present at the meeting. General Wickham has asked for the assurance of the officers of the regiment that there is a determination to improve its makeup, before honoring the requisition for new uniforms. If he attends Tuesday he will get the desired assurance in the best form—the report of the recruiting board.

General Moore and Colonel Simonds, the committee named by the board, are expected to correspond with the governors of the adjoining states to secure permission for the visit of state troops to the city, and received answers from five of the governors. The governors of Kansas, Nebraska, Iowa, Texas and Arkansas have written replies in which they assent to the proposal of the committee. The permission was asked for the purpose of the quartermaster and commissary generals of the states may have sufficient time in which to arrange transportation and subsistence for the men while on the visit. An effort will be made to have as many as possible of the city, and in fact, camp here for several days. The parade, in which they are invited to participate, takes place in October. The committee will correspond with the commanders of these troops and will have the partnership with the hope of securing the attendance of the Fort Leavenworth regulars for the same occasion.

The elaborate plant of Price's Cream Baking Powder—the largest in existence—shows what merit can achieve.

## COURT ROOM FIGHT.

Attorney Sebree Resents the Insult of W.  
F. Guthrie, an Attorney of  
Chicago.

The calm serenity that is characteristic of the surroundings in Judge Sarritt's division of the circuit court was broken yesterday by an animated but brief exhibition of pugilistic science, in which Attorney W. F. Guthrie, of Atchison, and Attorney Frank P. Sebree, of this city, were the participants.

The suit in which the First National Bank of Frankfort, Ky., is the plaintiff, and Thomas T. Crittenden and Judge E. H. Stiles are the defendants, was drawing to a close. Mr. Sebree, representing the defense, had finished his argument, and Mr. Guthrie had not talked five minutes before he said, "Gentlemen, in making this statement Mr. Sebree told a lie."

Sbree was standing in the rear of the court room talking to Lawyer Haft, and did not distinctly hear the remark by the gentleman from Atchison, but he was told by a bystander what had been said, and he at once walked up to Mr. Guthrie and, interrupting him, he had a good deal of the fight. Mr. Guthrie promptly replied that that was just what he said, whereupon Mr. Sebree as promptly landed his heavy right on Mr. Guthrie's forehead. The blow had fallen, but he did not strike the stenographer's table, but recovering himself, Guthrie led out at his opponent, and before the blow landed Judge Sarritt, who did not care to pose as a referee in a prize fight, jumped over the railing, squarely between the combatants, and with the assistance of Major Warner and one or two of the jurors the aspirants for pugilistic honors were separated.

When Judge Sarritt had resumed the bench he took occasion to severely reprimand the men, and, on the ground, to pass the lie is equivalent to a blow, fined Mr. Guthrie \$25, and because Mr. Sebree took his case in his own hands instead of calling for the protection of the court, he was assessed \$25. Although not associated with Mr. Guthrie in the case, wrote a check for the amount of the Atchison lawyer's fine, Governor Crittenden paid Mr. Sebree's fine. Mr. Guthrie is a lawyer and a Republican, and at the last state Republican convention came very near securing the nomination for attorney general. He has athletic tendencies, and would have made it interesting if the scrap had been allowed to proceed. Mr. Guthrie came here from Kansas about six years ago, and is at present the attorney for City Counselor McDougal. He is also a handy man in matters athletic.

The jury in the case returned a verdict for the defendants. The suit was brought to recover out of notes of one each, similar case, with the same plaintiff, against Judge McDougal, was decided for the defendant.

The Kansas City Metal Roofing and Corrugating Company have completed their removal to 416 Delaware street, and are now prepared to handle their business to much better advantage.

They have an unusually heavy and well assorted stock on hand, consisting of all kinds of roofing, siding and ceiling materials, galvanized iron, sheet iron, sheet steel, roof cresting, building paper, etc.

They have decorated their office in elegant style, with heavy drapery, steel and side wall lining, the effect of which will prove a great surprise to those who are not familiar with what can be done in this line.

Jerome Twissell, president and general manager of the company, deserves great credit for introducing this class of work in the West. It is quite inexpensive, and is certain to come into general use.

A cordial invitation is extended to all their friends and any one interested in building, to call and inspect this handsome work.

In the Building Line.

Last week's business in the building department was not quite up to the limit in number of permits issued, but the nature of the improvements called for, and the amount to be expended, are good indices of the growing building industry. Several of the permits were for residences of a high order and several were for substantial business blocks. Thirty-seven permits were issued, the aggregate cost amounting to \$1,780. Of this amount \$280 comes under the head of miscellaneous and absorbs thirty of the permits. The remainder is for new improvements.

Mr. P. Y. Wiley, ex-postmaster, Black Creek, N. Y., was so badly afflicted with rheumatism that he was only able to hobble around with canes, and even then it caused him great pain. After using Chamberlain's Pain Balm he was so much improved that he threw away his canes. He says this liniment did him more good than all other medicines and treatment put together.

Forest Hill is the new modern lawn cemetery, containing 29 acres. It has a fund for perpetual maintenance. Has built at great cost the finest public receiving vault in the West, of Phoenix granite, with eighty catacombs. For transportation and all information, communicate with George E. Hysell, Druggist, Opposite walking room, Union depot.

Like Spring Showers  
HOOD'S  
Sarsaparilla

Cleanses, Refreshes, and Renews the Whole Man.

Spring is the cleansing season. It is the time for new life, new hope, new ambitions. Spring showers are washing away the impurities which have gathered in winter, and are making ready the earth for the flowers of spring and summer.

Spring is the season for cleansing and renewing the blood. During the winter it has crept sluggishly through the veins, gathering impurities from indoor air, from fatty substances in the food, and from many other sources.

The great blood purifying medicine especially prepared to do this work is Hood's Sarsaparilla. It

Wise men do not build upon poor foundations, either in architecture or in the matter of health. The foundation of good health is pure blood. Hood's Sarsaparilla is the great blood purifier. Read this:

"I cannot speak too highly of Hood's Sarsaparilla, as it has worked wonders in my case. I am 74 years of age and have been afflicted with salt rheum on my hands for a great many years. I tried many things to cure them but failed. My hands would crack open and bleed profusely, and the pain was terrible to bear. Since taking Hood's Sarsaparilla the flesh has healed and the skin is as smooth as any one's. I recommend Hood's Sarsaparilla as a reliable medicine

Vitalizes and Enriches  
the Blood

and gives it purity, strength and richness which will bring health and vigor, strong nerves, a good appetite, refreshing sleep, and powers of endurance.

Cleanse your blood by taking Hood's Sarsaparilla, a renovating preparation especially prepared to make pure blood, then you may enjoy the season of flowers and birds and outdoor pleasures, for you will be healthy, strong and well.

and always speak in its favor." LYDIA B. CHASE, Swanton, Mass.

## Greatly Benefited.

"I have been using Hood's Sarsaparilla for a spring medicine and it has done me a great deal of good. It is the best medicine I ever took." H. H. HARRISMAN, Milton, New Hampshire.

N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy any other instead. Remember

## Hood's Sarsaparilla

Is the Only True Blood Purifier  
Prominently in the Public Eye Today.

## NO ONE CENSURED.

Coroner's Inquest on the Body of Louis Vochatz.

Coroner Bedford held an inquest yesterday morning on the body of Louis Vochatz, the stonemason, who was killed by the caving in of an excavation for the Shubert building on Grand avenue, Friday forenoon. The jury, while censuring no one, decided the cause of death being death by suffocation, but did not place the responsibility. The post mortem examination, conducted by Deputy Coroner Wheeler on the remains, disclosed the fact that six ribs on each side of the chest had been broken, also the chest was crushed in on the lungs. The funeral will take place this afternoon at 3 o'clock from Stewart & Carroll's undertaking rooms. The burial will be at the Union cemetery.

## JOHN WALLACE NABBED.

One of the Men Who Assaulted Superintendent Fish of the Union Depot.

John Wallace, an escaped prisoner, was rearrested yesterday afternoon. Wallace assaulted and severely beat E. A. Fish, superintendent of the Union depot, last winter. He was arrested at the time he made the assault, but escaped while being taken to the police station. The police have ever since kept a lookout for him, but could not succeed in capturing him. Yesterday Captain Jenkins and Officer Miller saw Wallace coming out of an alley near Union avenue, and placed him under arrest. He was taken to the county jail.

Why buy ice cut from ponds and bathing places when you can buy it hygienic from distilled and boiled water, at the same price. Kansas City Ice and Cold Storage Company. Telephone No. 721.

Mortuary Report.

Kansas City's death rate for the month of April was the lowest in the country, something not new, by the way. It was only 8.12 to the 1,000 of population. The health of the city was well preserved, the prevailing causes of death being consumption, pneumonia and tuberculosis. The latter was the most common cause of death in the city of late, there being ten deaths from it last month. The largest number of deaths was from babies under 1 year. Eighteen babies died, the next largest number being from those between 20 and 40 years of age. Six persons above 10 years departed this life.

The brush and the record of deaths is as follows: First, 6; Second, 3; Third, 4; Fourth, 11; Fifth, 7; Sixth, 2; Seventh, 4; Eighth, 22; Ninth, 20; Tenth, 1.

The record of contagious diseases and the deaths therefrom covers very little space. There were a number of cases of scarlet fever, forty deaths resulting from it. Measles claimed half as many victims, whooping cough and diphtheria disappeared. Of the deaths 44 were males, 58 females and 20 stillborn. The births for the month amounted to 138, 87 boys and 51 girls.

Use SOZODONT when you have eaten: Use SOZODONT your breath to sweeten: Use SOZODONT to aid digestion: Use SOZODONT and ask no question. Preserve your molars and you won't regret the use of SOZODONT.

GOING TO ST. LOUIS TO-NIGHT?

Burlington Route leaves at 8:15 p.m. The only line running three sleepers with new elegant compartment berths and buffet. Service unsurpassed.

WE DON'T TALK  
MUCH

About our "reputation"—that is established and we don't "have to." Nor do we worry much about "owning" our goods—all good business houses do that. What we DO talk

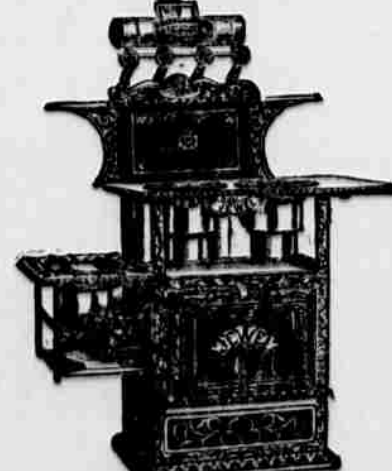

is our Pianos. We have beyond question the three finest Pianos in three grades in the city, if we do say it

OURSELVES

and you can't help being pleased if you call and see them.

New White  
London Sailors  
New Shapes  
in Leghorns,  
More Novelties  
Monday to Thursday.

Miss Doerle, in charge of the department, is again in New York, shipping daily the most select of reasonable Headwear. She knows how to select the most stylish Millinery. Whatever the season or the style demands will be here in fullest assortment.

Everybody Will  
Wear Waists  
This Season.

Waists and Separate Skirts—that's what every woman is talking this season. And there is a good reason for it. Two waists and two separate skirts give four complete changes of costume. And three waists with three separate skirts make nine changes possible. Who wouldn't rather have nine possible costumes than to be confined to three dresses?

We are told that all the other stores combined show a variety in Waists and Separate Skirts second to ours in every respect—and at higher prices. What we hear every day—and a dozen times a day—must be pretty nearly so.

Lawn Wrappers, \$2.25, for \$1.98

MAIL ORDERS—EVERYBODY PLEASED.
